

## LIVE-IT

Living Labs and Open Toolkit for the  
co-design of accessible IT systems and tools

### Online Webinar

Tuesday, 10<sup>th</sup> May 2022, 14:00 – 15:00 (CET)

Time	Activity	Chair
14:00 – 14:10	LIVE IT Introduction	LIVE IT team
14:10 – 14:45	IT aspects of accessibility, the visions of the IT community	Roberto Scano
14:45 – 15:00	Questions and answers	All

When we frame COVID19 and how it accelerated the pace of digital technologies into people's daily lives, in particular with those living with vulnerabilities, such as cognitive impairments, we look at a potential increase in the digital exclusion of a significant segment of the population.

It is now essential to come up with new ways in which we can support and re-think our approach to digital technologies in order to ensure that 'no-one is left behind' in participating fully in the digital world - in particular people who live with cognitive impairments.

The aim of the 4<sup>th</sup> LIVE-IT webinar is to contribute into raising awareness among our communities and people, in particular IT professionals and developers, professionals and carers of people with cognitive disabilities, organizations, business owners, policy and decision makers is fundamental to imprint any change.

Mr. Roberto Scano is a leading expert in the field of ICT Accessibility with more than 20 years of experience and practice who will share with the LIVE-IT Community his extensive knowledge.
